I was born and raised in Burekup where I live with my wife and young children. I understand the true essence of a community and the meaningful connections it fosters.

I am a small business owner as well as working FIFO.

For the past 25 years I have been a member of the Burekup Bushfire Brigade with the past 9 years as Brigade Captain and the last 3 years as member of the Burekup Advisory Group.

I am a firm believer in expanding our local industries. By leveraging the potential of our proximity to the Bunbury Outer Ring Road, Port and Rail Facilities, opportunities can be created for manufacturing and development, while keeping agriculture and farming a pivotal part of our local industry.

Our towns are more than just places to live. I advocate for strategic development that goes beyond the essentials. While I don't believe we should replicate urban areas in our rural towns, I believe in enhancing their infrastructure and services to create vibrant and liveable communities.
