- the fire is completely extinguished when cooking is complete.

### **FIREBREAK VARIATIONS/EXEMPTIONS**

If it is considered impractical for any reason to clear firebreaks or remove flammable materials from any land as required by this Order, you are required to make written application to the Shire of Dardanup **no later than 30 September each year** and include a plan of your land detailing your fire prevention measures to abate fire hazards. Prescribed Firebreak Variation/Exemption Forms are available from the Shire of Dardanup offices or by visiting the Shire of Dardanup website. If your request for a variation/exemption is not granted, you **must** comply with the requirements of this Order.

### **DEFINITIONS**

For the purpose of this notice the following definitions apply:

#### **ASSET PROTECTION ZONE (APZ)**

Asset protection zones must be a minimum of 20 metres. An asset protection zone is a low fuel area immediately surround a building and is designed to minimise the likelihood of flame contact with buildings and the effect of radiant heat. It is important to maintain the asset protection zones and from flammable material. If there are large trees in the asset protection zone, consideration of having the trees pruned by a professional contractor. There should be no trees overhanging buildings or assess within the asset protection zone.

#### **FIRE MANAGEMENT PLANS**

A “Fire Management Plan” means a plan that has been developed and approved by the Shire of Dardanup to reduce and mitigate fire hazards within a subdivision, lot or other area of land within the district. Where the property has an approved Fire Management Plan, compliance **MUST** be achieved in accordance with the conditions stipulated in the Fire Management Plan.

#### **IRRIGATED LAND**

Irrigated land is defined as land that is watered, kept fully watered and is maintained in an on flammable state for the whole of the restricted and prohibited burning periods.

#### **FIREBREAK**

A firebreak is an area of land that has been cleared to all trees, bushes, grasses and any other object or thing which may be flammable, leaving a surface of bare mineral earth. Firebreaks must be constructed inside and along the property. Firebreaks provide safer access to land owners and **fire appliances** to conduct fire suppression activities.
