

PLACE AND COMMUNITY PLAN 2020 - 2030

The Shire of Dardanup acknowledges the Noongar people as the traditional owners of the land upon which the Shire is situated. In doing this, we recognise and respect their continuing culture and contribution they make to the life of this region and pay our respects to their elders, past, present and emerging.

Introduction

The community services that local government provide are essential for social outcomes for our existing community and when attracting new people to the Shire. The Place and Community Plan (The Plan) seeks to guide the priority programs, projects, and initiatives that the Place and Community team seek to deliver over the coming 10-year period in-line with the Shire's Strategic Community

Plan. It reflects the current and changing needs of our community with a focus on place-based community development and the empowerment of individuals, groups and clubs. Through the implementation of the Plan, the Shire will continue to provide positive social outcomes by creating a safe, healthy and vibrant community which is inclusive and welcoming for all ages and interests.

Our Community

The Shire of Dardanup spans over 525.8 square kilometers comprising of urban areas, commercial and industrial development, townships surrounded by rural farming, vineyards and tourism, and State forest. The result is a diverse and unique community with varying needs, challenges and opportunities. In recognition of this, the Shire has identified five distinct places being; Eaton/Millbridge, Dardanup, Burekup, Ferguson Valley and Surrounds, and Wanju/Waterloo. Each area has a unique community with varying demographics, requirements, challenges and opportunities. The commonality of the five places is their active community, each with its own groups, organisations, clubs and individuals.

Dardanup has a growing community with an annual growth rate of 2.5% (Australian Bureau of Statistics data). Eaton and Millbridge comprise more than 77% of the current population of the Shire in less than 1.6% of the total land area. Data suggests Millbridge and Burekup have the largest number of families with children given the higher number of

people per household (3 and 2.9 respectively), lower median age (29 and 35 respectively), and highest percentage of children aged 0 – 14 years at over 28% of the total population of each area. Conversely, Dardanup records a higher median age (42 years) and over 17% of the population over 65 years indicating an ageing population in this area.

The Shire's population is forecast to increase to 17,980 (25%) by 2031 and to 24,097 (68%) by 2041 (Forecast.ID) in-line with the future development of Wanju. Between 2016 and 2031 it is forecast that there will be a 22.7% increase in population under working age, a 63.6% increase in population of retirement age, and a 17% increase in population of working age (Forecast.ID). Anecdotal evidence gained through consultation suggests that Dardanup has a growing population of families with children and this is reflected in Forecast.ID data that suggests Dardanup, Dardanup West, Picton East and Surrounding Areas will record the highest population growth in the 0 – 14 year age bracket from 2016 to 2041 at 38.1% forecast growth.

	Eaton	Millbridge	Dardanup	Burekup	Ferguson Valley, Dardanup West, and surrounds
Population	8,483	2,397	502	800	1,851
% total population	60.4%	17.1%	3.6%	5.7%	13.2%
Median age	38	29	42	35	48
Average people per household	2.5	3	2.5	2.9	2.6
Children 0 – 14 years	1,694	678	104	225	324
Young people 15 – 24 years	1,069	275	52	75	231
People 65 years+	1,553	134	89	88	272
Aboriginal and/or Torres Strait Islander peoples	201	32	9	6	2

Table: AUSTRALIAN BUREAU OF STATISTICS 2016 Census of Population and Housing

Informing Research

The following research has been included to provide insight into our community and informs the strategies and actions in the Plan.

The Australian Bureau of Statistics Socio-Economic Indexes for Areas (SEIFA) index defines relative socio-economic advantage and disadvantage in terms of people's access to material and social resources, and their ability to participate in society. A low score indicates relatively greater disadvantage. The Shire of Dardanup has a decile of 7 (out of a maximum 10), and is ranked 92 of 137 in Western Australia. This is higher than surrounding local government areas of Bunbury (decile 3), Collie (decile 2), Donnybrook-Balingup (decile 6); is comparable with Harvey (decile 7); and lower than Capel (decile 8).

The Australian Early Development Census Data 2018 looks at the developmental health and well-being of all children starting school by measuring the development of children in Australia in their first year of full-time school. In the Shire of Dardanup 238 children were measured in 2018. The data shows that when compared to the 2015 results, the Shire of

Dardanup has seen a significant increase in children being on track for physical health and well-being, social competence, emotional maturity, and communication skills and general knowledge. However, the percentages of children on track are lower across all indicators than the average recorded for Western Australia. There has been a significant decrease in those on track for language and cognitive skills from 2015 to 2018.

The National Disability Insurance Scheme forecasts the expected annual demand for services by 2023. In the Shire of Dardanup is expected that there will be a demand of 150 people with autism, 79 with intellectual disability, and 203 with other disability such as developmental delay, down syndrome, injury, vision, hearing, speech and other sensory impairments.

The Shire of Dardanup is ranked 11 out of all regional Local Government Areas in Western Australia in the 2031 WA Dementia Prevalence Predictions in people over the age of 65. The predicted prevalence is 325 people, reflecting an ageing population within the Shire.

Strategic Context

The Integrated Planning Framework, introduced by the Western Australian State Government in 2012, requires each Local Government to have a Strategic Community Plan, a Corporate Business Plan and other informing strategies in place to ensure the future provision of services is sustainable. As an informing strategy, the Place and Community Plan 2020-2030 reflects the vision and strategic objectives set-out in the Strategic Community Plan.

Other Shire-adopted informing strategies reflected in the actions of the Plan include:

- Disability Access and Inclusion Plan 2018 - 2023 (DAIP)
- Reconciliation Action Plan 2019 (RAP)
- Community Safety and Crime Prevention Plan 2018 - 2023 (CSCPP)
- Greater Bunbury Early Years Strategy & Action Plan 2018-2023
- Greater Bunbury Age Friendly Communities Strategy

What is Community Development?

The United Nations describes community development as ‘... a process designed to create conditions of economic and social progress for the whole community with its active participation and fullest possible reliance upon the community’s initiative’ (as cited by Lotz, J). Community development considers community members to be experts in their communities with programs led by community members at every stage, achieving long-term outcomes such as stronger and more cohesive communities (Child Family Community Australia Resource sheet, 2019).

Our Role

The Shire of Dardanup seeks to ensure a safe and vibrant community which is inclusive and welcoming for all ages and interests (Shire of Dardanup Strategic Community Plan Objective 3). The Place and Community Plan 2020-2030 identifies the following key focus areas to achieve this objective and set the direction for Council’s Place and Community Team over the next 10 years:

1. An Empowered and Actively Engaged Community
2. A Sustainable and Resilient Community
3. An Accessible and Inclusive Community
4. A Vibrant and Connected Community
5. A Distinctly Dardanup Community

We do best when we enable communities to define and drive their own positive social outcomes. The Shire of Dardanup will work with the community to achieve the outcomes of this Plan and will take on the following roles:

Deliver: to provide a service, program, event or initiative to our community.

Facilitate: to make it easier for our community to achieve their objectives.

Partner: to work directly with our community and service providers to deliver shared objectives.

Advocate: to voice support for an idea, project, or development to improve social outcomes for our community.

The plan will be delivered in stages:

Short: 2020 - 2023

Medium: 2024 - 2026

Long: 2027 - 2030

Throughout the implementation of the Plan we undertake regular consultation with the Place and Community Advisory Groups to ensure the actions are implemented in-line with the community’s expectation. The Plan will be reviewed every two years to ensure it remains relevant and continues to reflect the needs of our community.

Consultation

Input was sought from individuals and groups representing a diverse demographic within our community as well as key agencies and government departments as outlined below. Recent consultation conducted as part of Dardanup 2050 and the Community Facilities Plans also aided the formation of the plan. The outcomes of the engagement can be grouped into the themes outlined below.

A full consultation report is provided at Appendix A.

Community Connectedness

Increased community connectedness through events, activities and projects. This includes the development and delivery of local initiatives that encourage connection within communities, are inclusive of the entire community, and that actively include those who are vulnerable and/or at risk of social isolation.

Partnerships

Increased opportunity for community groups and services to partner with the Shire of Dardanup to deliver events, programs and projects that meet shared objectives and outcomes.

Total Participation

Providing opportunities for total participation of all members of our community by improving and promoting accessibility and inclusivity. This includes accessibility for people with disability in addition to providing services, programs and facilities that cater to, connect and celebrate gender equity, multiculturalism, aboriginal communities, and other marginalised, disadvantaged or minority groups.

Celebrating Our Unique Community

Highlighting and promoting the unique places within the Shire of Dardanup to increase awareness of what the Shire has to offer.

Engaged Youth

A separate and specific engagement took place with young people aged between 12-24 years. Key findings include the need for improved transportation to reduce social isolation, a lack of dedicated youth facilities, the need for more things to do including events and activities in local areas, and new skate parks. Stakeholder consultation revealed the need to engage young people to be more actively involved in the community.

Focus Area: An Empowered and Actively Engaged Community

Goal: Our community is well informed, connected, engaged and actively participates.

Appendix A - Community Engagement

1. Introduction

The Shire of Dardanup is developing a 10-year Place and Community Plan that aims to create positive outcomes through connecting and empowering the Shire of Dardanup community. The Plan will inform the priorities and focus areas of the Place and Community team including the programs, projects, and events held within the Shire.

On a broad level, it is envisaged that the plan will aspire to create a community that is:

1. Sustainable and resilient
2. Accessible and inclusive
3. Vibrant and connected
4. Empowered and actively engaged; and
5. Distinctly Dardanup (tourism and culture)

A review of existing plans and strategies as well as community input as outlined below and recent projects such as Dardanup 2050 and the Community Facilities Plans will aid the formation of the plan.

1.2 Purpose of Engagement

The purpose of the engagement was to better understand the needs, barriers, aspirations and ideas of the Shire of Dardanup community to ensure they are captured within the plan. The outcomes will help to further define the focus areas, and associated objectives and outcomes of the 10-year Place and Community Plan.

A separate and specific engagement took place with young people aged between 12-24 years within the Shire of Dardanup boundaries. This group was identified as under-engaged with little to no engagement with the Shire over the past five years. Additionally, young people have different channels and methods

to be effectively reached. The data collected will inform the plan, while providing a starting point for the building relationships between young people and the Shire.

1.3 Purpose of the report

This report has been prepared to summarise the meetings with stakeholders and community groups, along with the results collected from the youth consultation survey and workshops. Large parts of this report comprise the exact words written by participants in this process, collated into like themes and ideas.

2. Community Stakeholder Meetings

A series of meetings were arranged with groups of key stakeholders with a focus on community groups, associations and businesses.

The meetings were held over a three month period with stakeholders invited from a broad range of local groups and organisations.

- Chair Yoga attendees (Dardanup)
- Dardanup Knits and Knots Group
- Eaton Senior Citizens
- Eaton Family Centre
- Bethanie Aged Care Home
- Eaton Lions
- Dardanup Lions
- Crooked Brook Forest Association
- Leschenault Scouts
- Dardanup Playgroup

Key themes that were discussed with stakeholders are presented in this section.

2.1 Community Connectedness

Stakeholders identified a need to increase the community connectedness through events, activities and projects. This included programs and events for youth as outlined in section 3.3, along with events for families and children that are inclusive of the entire community.

It was highlighted specifically that more programs and activities were required for the senior members of the community as they are often at high risk of social isolation. Some activities included an intergenerational letter writing program, seniors mixed netball, a walking group and exercise programs.

It was raised that a community services directory of local businesses would assist community members getting to know people in their community while supporting local businesses.

2.2 Partnerships

A strong theme in the stakeholder meetings was the opportunity for community groups and services to partner with the Shire of Dardanup to deliver events, programs and projects that may have shared objectives and outcomes.

Suggestions from stakeholders included utilising Crooked Brook Forest for events and activities by partnering with the Leschenault Scouts to deliver programming for children and families during the school holidays.

There was also discussion surrounding a partnership between the Shire of Dardanup and Headspace Bunbury to increase the awareness of mental health services for young people in the community. Along with a partnership with Investing in Our Youth to deliver ongoing life skills workshops to youth to prepare them for adulthood.

2.3 Volunteering

A number of stakeholders identified the need to get young people volunteering in clubs and groups to assist in membership retention and to increase their active participation in the community. It was discussed that having young people would assist with providing new and fresh ideas to the clubs and groups, along with providing opportunity for young people to learn lifelong skills from older members.

Supporting this, stakeholders suggested a few ideas on how they maybe able to attract younger members including building relationships with young people through attending youth events, making membership more appealing and possible mentor programs with members and young people in the community.

3. Youth Consultation

The Shire of Dardanup delivered a youth consultation over a six week period via a survey and ideas wall on Social Pinpoint along with workshops called 'Pizza Arvos' presented to young people in Burekup, Dardanup and Eaton. During the consultation period, 60 surveys were completed, five ideas were left on the ideas wall and 48 young people attended the workshops.

In addition to the survey and workshops, the Shire also met with a board range of youth related stakeholders over a three month period.

- City of Bunbury Youth Officer
 - Shire of Augusta Margaret River Youth Trainee
 - City of Busselton Youth Development Supervisor
 - Youth Leadership Academy Australia
 - Headspace Bunbury
-

- Investing in Our Youth
- Shire of Capel Community Development Team
- Cassie Fry and Debbie Staub (community members)
- Bunbury Senior High School
- Eaton Community Collage

Key themes that arose throughout the youth consultation period are presented below. Further details of the findings from the Pizza Arvos and surveys are attached in Appendix A.

3.1 Improving Transportation

Feedback from the survey and workshops outlined that transport (33) was one of the biggest barriers for young people, especially those located in the Burekup and Dardanup area due to no public transportation available to travel to surrounding urban areas. There was an overall desire to see a bus service running to Burekup and Dardanup during the school holiday period and on weekends.

The following points were raised by young people in the areas of Burekup and Dardanup about the lack of transportation.

- Many of the youth in their area were too young to use the bus service when the trial was run in 2018 and suggested running another trial period now they and their peers are older.
- Several young people advised that they attended school in Bunbury and felt socially isolated due to a lack of transportation options in their community and were not able to easily connect with friends.

3.2 Dedicated Youth Facilities

Many young people identified the absence of

facilities for youth (21) as something they did not like about living in the Shire of Dardanup. Young people advised they would like a space to hangout, connect with others and seek support from local services.

The following points were raised in regards to a youth facility.

- The Shire of Dardanup should create a public facility for young people. Young people are at a busy and overwhelming stage of their life where their emotions, relationships and life in general are changing. A youth facility would be a fantastic addition to the Shire of Dardanup as it gives the youth a place to relax and hang out, bringing out some fun and joy in their busy lives. For example, a large grassy area with things like bean bags, chairs and entertainment.
- All the things on this wall can be coordinated and organised by creating a space for young people. They were quite common when I was a teenager and they were very effective in organising things for youth to get involved in.
- Drop in centre for young people supported by the Shire, police, schools and local community groups. Somewhere for the school age children to go have fun! Things that should be included: sport equipment, TV, video games, cooking classes, etc.

3.3 Events and Activities

Every stakeholder group, along with those who completed the survey and attended the workshops provided feedback that more youth dedicated events and activities need to be provided to young people (45) in the Eaton, Burekup and Dardanup areas. Young people suggested that there was little to do in their area on the weekends and during the school holidays, which resulted in them feeling bored (10) and like there was nothing to do in their community.

Young people provided their interests along with ideas for activities, programs and events they would like to see being delivered in their community. There was a particular strong interest in developing a large youth event during Youth Week with a band, markets, skate ramps, amusements and food trucks. Other interested outside of school, study and work are listed in Appendix A.

3.4 Skate Park Development

A strong theme in the workshops in Dardanup and Burekup was the need for new skate parks (46) in Burekup and Dardanup town sites. The young people that attended the sessions noted the current skate parks in Burekup and Dardanup were undesirable and in some cases damaged and outdated. When asked if they would prefer a skate park or pump track, the young expressed a skate park was preferred and their dream skate park would be similar to the one located in Boyanup.

They also advised that they would like lighting at the skate park in Dardanup so they can use the facility after nightfall during the winter months. Along with this, young people would also like to see additional seating provided at the skate parks to provide them with a place to hang out with friends who may be utilising the facility.

3.5 Sport and Recreation

Sport and recreation activities were ranked the highest when young people were asked about their interests outside of school, study and work.

- 49 – Sport and fitness
- 9 – Dance
- 22 – Skateboarding/BMX/ Scooters
- 33 – Outdoor recreation

In addition to this, many young people said skate parks/BMX tracks (24) were their preferred place to hang out, along with sporting facilities (20). Young people from Eaton advised they like to hang out on weekends and during the holidays at the basketball courts located at Lofthouse Park; however, they noted that the courts are small and not sufficient for their needs (5).

During the Burekup workshop, several young people said they like the big oval, the basketball and tennis courts. There was also a similar theme across both Dardanup and Burekup in regards to the young people liking the open space (12) their communities offer.

4. Stakeholder Meetings

During the consultation period, a series of meetings were arranged with stakeholders including with agencies, State Government and funding bodies.

- LotteryWest
- Department of Culture and the Arts
- Department of Local Government, Sport and Cultural Industries
- APM Communities

Key themes that were discussed with stakeholders are presented in this section.

4.1 Total Participation

A key theme during these meetings was increasing the opportunity for total participation of all members of our community by improving and promoting accessibility and inclusivity. This includes accessibility for people with disability, in addition to providing services, programs and facilities that cater to, connect and celebrate gender equity, multiculturalism, aboriginal communities, and other marginalised, disadvantaged or minority groups.

4.2 Demonstrated Community Need

All stakeholders agreed, the community must be the driving force behind all projects, and as such all funding applications must have a clearly identified and demonstrated community need. Further to this, they advised applications must consider the “For the community, with the community” principal.

4.3 Community Connection

Another central theme discussed was creating opportunities for community connectedness, particularly in the wake of COVID-19 and the effects of isolation on our communities. There is a drive to develop and deliver local initiatives that encourage connection within communities and that actively include those that are vulnerable and/or at risk of social isolation.

5. Community Advisory Group Meeting

The key focus areas and strategies were presented at the Community Advisory Group on Wednesday 23 September 2020. In attendance were representatives from:

- Eaton Family Centre
- Headspace
- WA Police
- St John of God Hospital
- Bunbury Repertory Club
- Residents

The following key themes were discussed during the meeting.

5.1 Community Connectedness

There was an overall desire from the group to see an increase in the connectedness of

the community. This included an increase in activities, projects and events that increased the opportunity for members of the community to connect with neighbours, family and friends.

Specifically, the group mentioned developing a two-way mentoring program that focuses on transferring the experiences and skill-sets of one generation to another. Other suggestions also included a volunteering event/expo with a number of organizations and community groups coming together for a “have a go” day and an annual ‘orphans’ Christmas for people isolated from their families.

In addition to this, a number of people from the group identified the need for a community directory to assist the community in locating services, businesses and agencies within the Shire.

5.2 An Accessible and Inclusive Community

The group identified outreach programs such as a cross generational bus service and mobile tech programs for seniors as a way to make the community more accessible and inclusive. Many elderly people or people with a disability have difficulties accessing some of the services the Shire has to offer, such as the Be Connected program, due to mobility issues or not being able to leave their homes for health reasons.

They also advised that there is opportunities for the libraries to partner with services and NGOs on educational programs surrounding access and inclusion. In addition, plans for the new library should also include private areas for people with sensory processing disorders or for other members of the community to use to access telehealth appointments and attend to confidential financial matters. One person within the group noted that free and reliable WIFI was vital to providing these services.

It was highlighted specifically that hard copy newsletters would be beneficially for seniors who do not have access to the internet to keep

them up-to-date on Council matters. It was proposed that people could opt-in via the rates notice. In addition to this, the representative from Australind Police suggested including a safety article in the newsletter and the existing community news advertisement in the local newspapers to educate elderly people around personal safety.

5.3 Engaged Youth

A strong theme throughout the meeting was engaging young people to be more actively involved in the community. The group agreed that young people often support causes and more abstract ideas rather than joining community groups, so therefore it's important to engage youth in causes and ideas they are passionate about. They also suggested the following projects and events they felt would appeal to young people:

- Youth Arts Forum
- Murals by young people
- A youth bus for transportation during the holidays

The group also discussed the importance of attracting 18-25 years olds to move back to the area from Perth after completing study to continue to grow the area.

5.4 A Distinctly Dardanup Community

The group discussed the importance of highlighting and promoting the unique place within the Shire of Dardanup as many people aren't aware of what the Shire of Dardanup has to offer. Some suggestions that came from the discussion included:

- Feature 'hidden gems' within the Shire of Dardanup on the website.
- Connect Eaton to Dardanup with the history and heritage
- Increase signage to mark places and trails

throughout the Shire

- Information centre at Eaton
- App with trails, walks, etc

6. Vision 2050 Engagement*

The Shire of Dardanup recently undertook community consultation relating to its Vision 2050 Strategy. Some of the themes explored are directly relevant to the Place and Community area of responsibility and should be considered as part of the Place and Community Plan.

The relevant themes from the community and stakeholders meetings are:

- **Keeping People Here:** Stakeholders identified the need for programs and activities that link isolated people to the community; programs to increase volunteering; and spaces and activities to keep young people entertained. A lack of suitable public transport options for young people particularly in smaller town sites was also noted.
- **Community Connectedness:** stakeholders identified the need for increased community connectedness including programs for youth and seniors, improved opportunities for young families, and more activities and events that bring the community together. Multi-purpose all-ages civic spaces was identified; as well as inclusivity for all and a stronger focus on Aboriginal engagement and storytelling.
- **Tourism:** significant events or cultural activities to drive major tourism and support the entire South West region.

Of the 'big ideas' suggested at the community summit, the following objectives and action areas are of relevance:

1. Shared spaces: multi-generational spaces and co-location of places.

-
2. 24/7 Community: 24/7 access to public libraries and community areas, and home deliveries.
 3. Youth Leadership and Engagement: building leadership, youth voices consulted for their futures, and encouraging youth involvement.
 4. Social Inclusivity: increasing social connection to reduce social isolation and increase health and wellbeing; aboriginal community engagement and shared futures; social inclusivity.
 5. Non sport recreation facilities: facilities that are accessible to everyone and accommodate different interests, supporting community groups and inspiring those with a vision to share it.
 6. Urban food production: urban community gardens to increase sustainability, teach skills, improve mental health, and bring the community together.
-
