Dear Jake

I'm writing this letter to ask the shire for the approval of my existing 'shed/ lean-to' that I built 15 years ago, the shed in question started off as a 'lean-to' of the side of my approved shed as I needed somewhere to store my caravan and trailer, I quickly learnt that the weather from the west was blowing in under the lean-to and my caravan and trailer were deteriorating to the point that I had to enclose it to stop the weather from coming in. The shed in question has put me over the allocated square meterage that I'm allowed for the size of my block, but at the time of me building off the side, I didn't realize by enclosing it, it would be classed as a shed, since then I have put a pool area in and the lean-to or shed if you want to call it that forms part of the area that I have constructed into a pool area, The shed is now fixed to a brick wall that forms part of the pool fencing to keep people out. I have recently sold my property and since then the issue of the lean-to or shed has arose and I have had a structural engineer come out to look at it and who has given his approval that it conforms with all the building requirements, the company's name is be-safe building inspection service, the name of the person who gave the approval of the structure was Peter Butcher, The people who have brought my property brought it because of the shed space they have cars and a small truck they need to store and if common sense does not prevail in this case I may lose the deal of selling my property, I have had my house on the market for two years and have finely got it under offer, my property is over 1200 2m and we live in a small town in a semi-rural area my shed does not look out of place on my block and my neighbors have never complained about my shed at all and since this issue has arose they have given me a written consent form to say they don't have any issue at all with it, I understand the shire have rules that they have to abide by but sometimes common sense needs to prevail it is not as if I live in mill-bridge on a 450 2m block and have built a massive shed that looks out of place, so I will be asking the shire councilors who the people have elected to come to my property to look at the structure so they have a better understanding of the issue when voting on my approval for the structure to remain at a full shire council meeting in the not too distant future. This issue has put my family under a lot of stress that we don't need right now we have had a long battle to get custody of my young granddaughter who is now in our care and is in her second year of primary school, the reason for selling the house is to help pay for her education something we never planned on when we retired and our retirement funds have taken an even bigger hit because our daughter was in a bad car accident in front of the waterloo gull fuel station about 18 months ago when a young man drove straight into the back of my daughter as she was indicating to turn into the fuel station causing her car to explode into flames and her receiving burns plus she broke all her ribs which have since heal but not in alignment and has caused her great pain, and she has only just started to walk properly in the last eight months so we have had to deal with her medical bills as well as fight to get her some insurance which is still in progress, we cannot afford to have the shed pulled down and we need to sell our property to help our grandchild get through schooling and our daughter who cannot work because of her injury's, so I would ask the shire to show some compassion and also the councilors who after viewing the structure will understand that it is not out of place and that it was never intended to ever be classed as a shed and as you would be aware as the years go on you always accumulate and add things to your property as we have and now we need the shire to allow us to keep the lean-to /shed in question and give us the approval we need so that we can sell our house.

Kind regards

David, Jeanette Richter.

J. A. Richter

- A site plan showing the floor plan of house/outbuilding where the proposed home occupation/business is to be conducted and the proposed location of client parking areas if applicable.

Samantha Peacock

16 Lucretia Street

Eaton WA 6233

Dear Barbara,

I am writing to apply to the shire of Dardanup to open a Family Day Care Service at 16 Lucretia Street Eaton. 8

My Proposal

Operating Days/Hours:

Monday to Friday 7:30am – 5:30pm

51 weeks of the year closed weekends and public holidays

Children Attending:

4 children attending under the age of 4 and 3 school age children.

Care for children from 1 year to 12 years

Parking:

There is a long singular driveway with a side parking space to the carport. This can fit 4 cars quiet comfortably without encroaching on the council verge (see attached plans).

Sleep/Rest times and Excursions:

The children will have a space to rest and relax as and when they want. There will also be a time during the day for rest/sleep for the younger children.

I plan to take the children on excursions within our local community. We will be visiting local playgroups, playgrounds, shopping centres, local libraries and other places of interest to the children.

Security Measures:

The following measures to the property will be undertaken to ensure it is safe and secure for the children attending the Family Day Care Service after settlement occurs on the 30th June 2017.

- The back yard is fenced, secure and safe
- The side access to the back yard has a gate, which is safe and secure and will have a lock put on it .
- As per family day care requirements the windows will be tinted with approved security film.
- Security screens to the door and windows will be installed, with key locks to the doors for security purposes.
- The front yard will be fenced in, to create a safe space for arrival and departure of families. As well as creating an additional outdoor play space for the children.
- An alarm system with camera will be installed so I can see all aspects of the house inside and outside at all time, also a camera for the front door bell, so that where ever we are on the property we can see who is at the front door.
- All adults on the property will have police clearances and working with children checks.

I have a diploma in Children Services as well as a degree in Early Childhood Teaching, I have been working with children for over 30 years in every aspect from being a nanny, to working in and running long day care services, working with children and families at risk and with additional needs. As well as teaching.

My personal philosophy when working with children is to work with them through play, to facilitate their growth and development. Every child is a unique individual and learns in their own way.

Children need to have time and space to explore, experiment and engage with materials, resources and the world around them. My aim is to provide a space for children to have an environment where they can embrace this type of learning.

The children will be a part of our day to day routine. They will be making the decisions and choices together of what we are going to do, what we are going to eat, where we are going to go and so on.

The will need to risk assess, problem solve and learn how to work together to achieve out daily tasks. By giving the children these opportunities they will be able to build relicense and empathy and grow and develop at a pace that works for them.

The resource and materials that they will have to engage with will mostly be open ended and give the children the opportunity to create, build and play as they want. By having multiple resources the children will discover the way that they learn best and have the tools to do so with my guidance and support.

The children will have access to the following play space at my Family Day Care Service:

- A large outdoor space to explore and engage in:
 - Veggie patch
 - Mud kitchen
 - A boat
 - Large trees with tyre swing
 - Large grassed areas to play
 - Space to climb, balance and jump
- Art studio
- Loose part Play
- Construction Play Spaces
- An area where we will met to have meals and discuss our days
- A cosy area to relax and rest in
- A library
- Imaginative play spaces

If you have any questions in regards to my application please do not hesitate to contact me, I look forward to hearing from you.

You're sincerely

Samantha Peacock

It is my opinion that a day care centre in Lucretia Street would in fact be a traffic hazard. School children from Eaton Primary school use the pathway through. Parents are already parking on that street for pick up.

My street.. Casuarina street and Scott Street have been the local drag strip for a number of years .

Dropping off and picking up children. The congestion would be overwhelming.

Even still with the slow down school signs, not much has change.

I would be against the proposal.

I have lived in Casuarina Street for over 40 years

To whom it may concern

We wish to put in a rejection to the approval of a family day care at 6 Lucretia Street Eaton. This street is currently a quiet street which is only used by residents and if residents have visitors. This was a very important factor for us when we were purchasing our property.

We do not believe the proposed parking bays at 6 Lucretia Street will work as it will only be a matter of time with everybody's busy life style that they will not want to be blocked in by another car when collecting their children and they will start parking on the sides of the street or in front of our homes.

There is also a walk way to the Eaton Primary school from this street that children use and the extra traffic will be a hazard to these children.

We are also concerned that the current day care centers around the area are not at full capacity therefore taking business away from already struggling businesses.

Kind Regards
Sharon and Lance Linton
10 Lucretia Street Eaton

Hi

I have just returned from 5 weeks overseas and found a letter from you regarding the proposed Family Day Care at Lot 747 (6) Lucretia street Eaton.

I understand this response is late but I was out of the country.

I live at the house over the rear back fence and have concerns. Our adjoining fence is made of ASBESTOS; and because of the trees in the backyard of the other property the fence has a dramatic lean and two of the fence sheets are split down their lengths. My concern is that I have a backyard pool. The fence is old and has been patched previously. We have tried to contact the owners with our concerns regarding the fence earlier this year but not been successful. I am not sure if the people who now occupy the property are the same.

Prior to our purchase of this house a small child had already drowned in the pool when the pool and fence was installed, and I would hate for this to happen again.

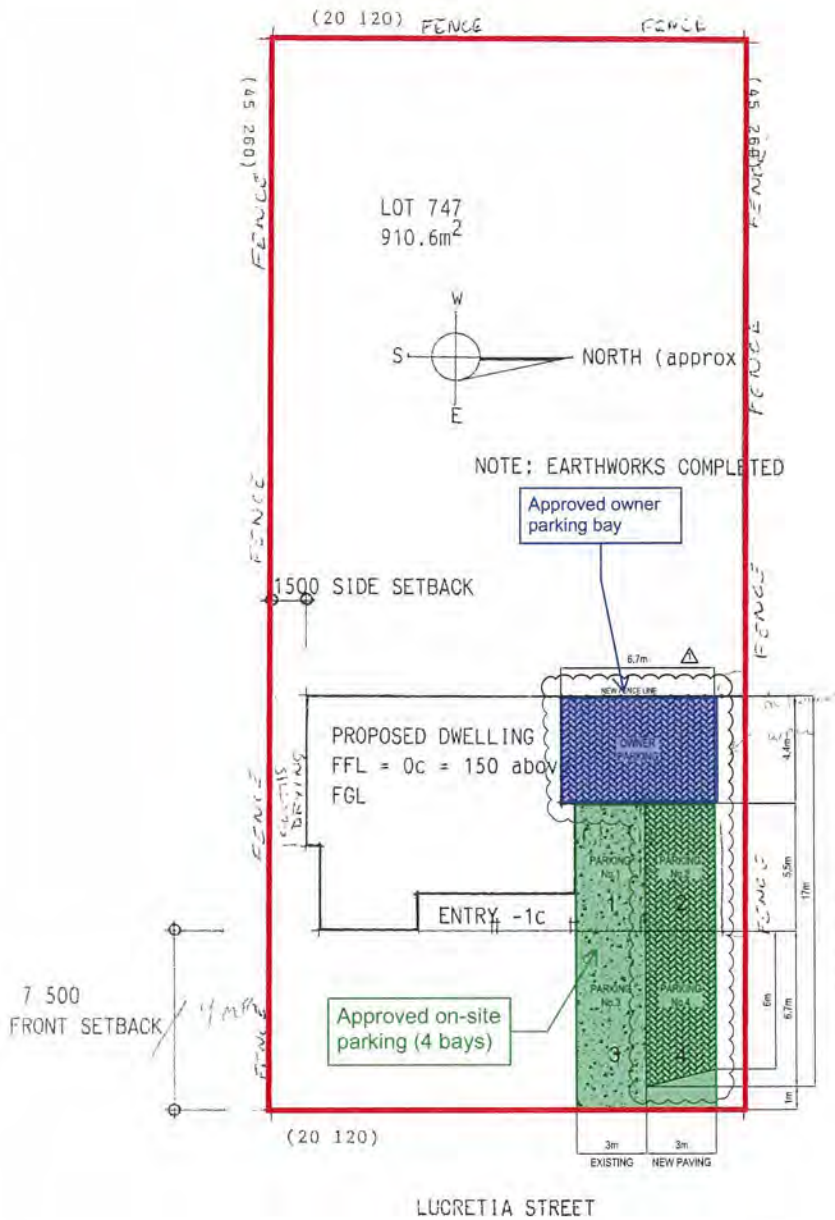

We have no objection the the centre as such, but the fence does need to be looked at.

Sharon and Garry Calgaret.

Application for Development Approval:

Patio – Lot 116 (1) Palomino Close, Eaton

Hi Alice,

I have been out to visit Dennis and Mary in regards to the phone conversation about the height of their proposed Carport. They are still hoping to get it through as per the plans I sent in for Development Approval. If I lower the height it will dramatically restrict the head room clearance for backing in there Caravan/Winnebago. With a finish height of 3m Dennis will only have a 100mm in the play when backing something that big in which isn't much. Without the Carport at the proposed height for clearance there isn't appoint in getting a lower carport as more likely than not the caravan will hit the roof if he is off by the slightest.

After driving around Eaton area there are numerous other carports with raised brackets for clearance for Caravans and boats much the same as there's. However there are some key points that will make there's blend into the street scape better than the others:

- The Carport is back behind the Garage so it won't be line with the front facade of the house, this also means it won't be noticeable to people driving by
- The Carport is at the same pitch as the shed so it will blend in and won't look out of place with the house/shed
- The Carport is the same colour scheme as the surrounding area and existing shed so it will blend in
- We have Neighbors Approval for the structure with signed drawings as well
- The Carport is open on the boundary side not enclosed with Shade Cloth like a lot of other carports

I hope these points can help with the Development Application the main purpose of the Carport is the store/cover the Caravan from wind and weather damages as it sits in the open at the present. Dennis and Mary said you are more than welcome to go past and view the Caravan for yourself to see the sizing,

Thanks again Alice, please don't hesitate to call or email me if you have any questions or queries,

Regards,

Stephen Galati

To the Planning Team, Shire of Dardanup

I am requesting a larger than the designated 80m² shed specifically 96m².

The primary reason for this is storage space. I currently have a boat and a classic motorcycle that I would like to store within the shed. It is also my intention to purchase a camper trailer which will also be housed within the shed. As a tradesman I have a large amount of tools which also require an appropriate secure storage area.

Secondary to this I enjoy woodwork as a hobby and have been gifted some tools and equipment which is currently in Perth at my father in laws. It is my intention to be able to enjoy this hobby and pass on some of these skills to my son and daughter in the years to come.

At 1516m² I feel the block is large enough to support a shed of this size. Further to this the placement and colour scheme of the shed has been aimed at causing the least visual impact to my neighbours.

Kind regards

Nathan Waldren

Subject: Re: Council item - 16 Money Street

Good morning Alice

The reason for the heights was so i would be able to at some point put in a section of loft, once again purely for storage. Camping equipment, christmas decorations and other sundry items which clutter the house but are too usefull to throw away.

Thankyou for your email, please let me know if you need anything else. I will have time tomorrow if you would like me to drop by for a chat about this.

Kind regards

Nathan Waldren

Subject: Council item - 16 Money Street

Good morning Nathan,

The advertising period for the proposed outbuilding closed on the 8 August 2017, receiving no submissions. I am currently preparing a report to Council for the oversized outbuilding and require further clarification/justification as to why the proposed outbuilding is over height.

As per our DEV26 policy there is a maximum wall height of 3m and a maximum ridge height of 3.9m within Residential areas. In the application for development approval it is mentioned that the outbuilding will be used for the storage of a boat, motorcycle and camper trailer, however these items are not considerably large in height. Are you able to provide justification for the height variation to the DEV26 policy? Or alternatively adjust the height of the proposed outbuilding to comply with the DEV26 policy, as it may be viewed more favourably by Council.

We are aiming to have the item go to the Council meeting for the 20 September 2017.

Kind regards,

Division 4 - Cockroaches

Interpretation

6.4.1 In this Division, unless the context otherwise requires -

“**cockroach**” means any of the various orthopterous insects commonly known as cockroaches.

Measures to be taken to eradicate Cockroaches

6.4.2 (1) An owner or occupier of premises shall take effective measures to eradicate any cockroaches in or on the premises.

(2) An Environmental Health Officer may direct, orally or in writing, an owner or occupier of premises to take whatever action that, in the opinion of the Environmental Health Officer, is necessary or desirable to prevent or deter the presence of cockroaches in or on the premises.

(3) An owner or occupier shall within the time specified comply with any direction given by an Environmental Health Officer under this Section.

Division 5 - Argentine Ants

Interpretation

6.5.1 In this Division, unless the context otherwise requires -

“**Argentine Ant**” means an ant belonging to the species ‘*Linepithema humile* (formerly *Irdomyrmex humilis*)’.

Measures to be taken to keep premises free from Argentine Ants

6.5.2 An owner or occupier of premises shall ensure that the premises are kept free from Argentine Ant colonies and shall -

- (a) take all steps to locate any nests, if Argentine Ants are noticed in, on or about the premises;
- (b) properly treat all nests of Argentine Ants with an approved residual based insecticide; and
- (c) whenever required by an Environmental Health Officer -
 - (i) treat any area or infestation with an insecticide referred to in paragraph (b); and
 - (ii) remove any objects, including timber, firewood, compost or pot plants in accordance with a direction from the Environmental Health Officer.

Division 6 - European Wasps

Interpretation

6.6.1 In this Division, unless the context otherwise requires -

“**European Wasp**” means a wasp *Vespula germanica*.

Measures to be taken to keep premises free from European Wasp Nests

6.6.2 An owner or occupier of premises shall ensure that the premises are kept free from European Wasp nests and shall -

- (a) follow any direction of an Environmental Health Officer for the purpose of destroying the wasps and their nest; and
- (b) assist an Environmental Health Officer to trace any nest that may be present in, on or about the premises.

Division 7 - Bee keeping

Interpretation

6.7.1 In this Division, unless the context otherwise requires -

“**bees**” means an insect belonging to any of the various hymenopterous insects of the super family Apoidea and commonly known as a bee.

Restrictions on keeping of Bees in Hives

6.7.2 (1) A person shall not keep or permit the keeping of bees anywhere within the district unless approval to do so has been given by the Council.

(2) If, in the opinion of an Environmental Health Officer, the approved beehives are causing a nuisance, the Council may direct any bees or approved beehives to be removed.

(3) A person shall comply with a direction within the time specified.

Division 8 - Arthropod Vectors of Disease

Interpretation

6.8.1 In this Division, unless the context otherwise requires -

DRAFT Urban Beekeeping Code, to be recommended by the Western Australian Apiarist Society (WAAS), for all Local Government areas in WA

1. Introduction

Beekeeping is becoming increasingly popular in cities, towns and suburbs. The number of new hobby beekeepers has increased dramatically with the invention of the 'Flow Hive'. This document applies equally to the keeping of bees in conventional hives and to the keeping of bees using the Flow Hive.

*Beekeeping provides honey for home consumption, enjoyment in watching bees and learning all about them and the opportunity to join an amateur beekeeping group. In general, the term beekeeping refers to the keeping of European Honey bees (*apis mellifera*). This Code is written referring only to that species of bee. WAAS does not purport to have any expertise or knowledge about any of the native Australian bee species.*

European honey bees can and will sting when threatened or under duress. Stings are painful and can cause distress to the recipient of the sting. It is intended that this Code forms the prescription for harmonious cooperation between beekeepers and other land occupiers. The proper and responsible management of bees will ensure there is no undue impact on the community. In that way bees can be kept by hobby beekeepers without the need for any control other than registration with the state agricultural authority. Compliance with the Code will ensure that the keeping of honey bees does not have a negative impact on people, property, domestic animals or native fauna.

In Western Australia there are fewer serious incidents caused by bee stings per year than there are serious incidents caused by dog bites.

The purpose of this document is to form a reference and standard for the management of amateur beekeeping in Western Australian urban and suburban areas. Its intended uses include:

- giving the community confidence in the safety of beekeeping activities;*
- helping local government and regulatory bodies to establish uniform controls;*
- providing a standard against which any complaints can be resolved; and*
- providing a standard with which beekeepers should comply.*

In preparing this document, we have reviewed the Codes of Practice published by the relevant authorities in QLD, NSW, ACT and VIC and a Code of Practice produced by the Southern Beekeepers Association Inc of Tasmania. We have also referred to research by the City of Subiaco (its Beekeeping Local Laws Summary 2016) and a submission by Alan Langridge to the City of Wanneroo also in 2016.

2. Definitions

Apiarist / Beekeeper -

a person keeping bees.

Honeycomb-

removable frames containing wax cells which house honey, pollen, and/ or brood (eggs, larvae, pupae).

Apiary-

a place where honey bees are kept in hives.

Apiculture / Beekeeping-

the management of beehives.

Beehive / Hive-

modular framed housing for a honey bee colony, which normally contains either a nucleus colony or a standard size colony.

Bee sting-

injury sustained and inflicted by the venom from a honey bee worker.

Colony-

a family of bees: workers, a queen and drones

Feral bee colony-

a colony of bees which has its nest in a place other than a beehive, e.g. a hollow tree

Flight path-

the distinct route taken by many bees leaving from or returning to their hive.

Foraging bees-

bees seeking out supply of water or feed; bees naturally forage flowers for nectar and pollen supplies.

Honey flow-

the gathering of nectar from flora by honey bees.

Honey extraction-

the removal of honey from combs.

Honey super-

a super which is full of honey

Pollination-

the transfer of pollen by honey bees from anthers to stigmas of flowers for the purpose of plant fertilisation.

Robber bees-

bees attempting to access stored or spilt honey, or honey in another hive.

Sticky super-

A super from which most of the honey has been extracted, and which contains honey residue

Super-

box containing frames, placed above the bottom or brood box of a hive.

Swarm-

cluster or flying mass of honey bees

3. Requirement to Register

All beekeepers in Western Australia are required to register with the Department of Agriculture and Food (DAFWA). That requirement exists for amateurs with one or more conventional hives or Flow Hives, just as it exists for professional beekeepers. The registration process is inexpensive and registration forms are available on the department's web site (www.agric.wa.gov.au). Upon registration the beekeeper is issued with a unique identifying brand with which they are obliged to mark every hive. Registration must be renewed annually for as long as the beekeeper keeps bees.

4. Applicable Legislation

In WA, beekeeping must be carried out in accordance with the Biosecurity and Agriculture Management (Identification and Movement of Stock and Apiaries) Regulations. This is legislation which applies state-wide.

In addition, most local authorities have by-laws which cover beekeeping locally; these are available from individual councils, but are generally not uniform.

One of the goals of this Beekeeping Code is to encourage uniformity across all local authorities in the by-laws governing beekeeping. Very few Local Authorities employ inspectors or decision-makers with beekeeping expertise. This Code establishes the principal criteria which all beekeepers should follow, thereby relieving Local Authorities of the need to have in-house expertise.

5. Beekeeping Groups

In WA, the peak beekeeping body is the Bee Industry Council of Western Australia (BICWA). Its members are the various professional beekeeping associations plus the Western Australian Apiarists Society (WAAS).

WAAS has a membership of mainly amateur and hobby beekeepers with a few commercial beekeepers. Urban beekeepers are strongly encouraged to join the WAAS in order to benefit from its educational events promoting good beekeeping practices (consistent with this Code). The society holds many events plus beekeeping courses, field days and monthly meetings with opportunities to learn from visiting speakers and to socialize with other beekeepers (both experienced and novice).

6. Swarms and Bee Enquiries

Swarming is a natural occurrence, primarily in spring and early summer. Members of the public concerned about a swarm of bees usually contact the local authority, many of which keep a list of beekeepers willing to capture and remove swarms.

The WAAS web site also lists names and contact details of beekeepers who are available for swarm collection (www.waas.org.au).

Some individuals nominate a charge for this service.

Refer to the item below for notes on the control of swarming.

7. Urban Considerations

7.1 Hive Densities

One of the primary controls to minimize the potential conflict between people and bees is to manage the density, or concentration, of hives in urban and suburban areas. The table below gives the recommended numbers of hives per allotment, assuming that the beekeeper, is registered and also observes the other

(Appendix ORD: 12.7D)

recommendations in this Code such as heights of barriers at boundaries, working hives in fair weather, etc.

This table complies with the National Best Management Practice for Beekeeping in the Australian Environment (from the Australian Honey bee Council) with reduced numbers for small allotments to further reduce the chance of nuisance complaints in higher density urban areas.

Allotment area	Maximum Number of Hives
up to 400 m ²	1
400-1000 m ²	4
1000-2000 m ²	8
2000-4000 m ²	16
>4000 m ² , if urban zoned	Seek advice from WAAS
For hives on rooftops:	Seek advice from WAAS

At certain times of the year, e.g. when splitting hives, some additional hives should be permitted for short periods.

It should be noted that these are recommended maximum hive numbers; the configuration of surrounding dwellings and their surroundings, including gradients of terrain, will influence the actual suitable maximum number of hives on a particular block of land. The flight path to and from hives will also need consideration.

7.2 Hive Placement & Barriers

Correct placement of hives is a most important consideration for responsible beekeeping in urban situations. The hives must be in a dry, quiet area of the allotment, out of sight from roads and footpaths. That normally will mean in rear gardens and not in front gardens. Position the hive so that it is approached from the side or rear and will be maintained from the side or rear.

Hives should not be placed within 3m of a neighbouring property, unless a solid fence or impenetrable plant barrier, not less than two metres high, forms the property boundary. Note that most local authorities in Western Australia require specific approval be obtained for fences more than 1.8m high.

Separate hives similarly from roads and footpaths and outdoor eating areas on the allotment, doors and openable windows of buildings.

Face the entrance of the hives in such a direction that bees fly across your property before crossing a boundary. If this cannot readily be done, consider placing barriers along the boundary. These can be in the form of hedges or shrubs, or instant barriers consisting of shade cloth fixed to a trellis, high enough to ensure that bees crossing the boundary are well above head height. Bees will then fly up and over these structures and should not worry neighbours.

(Appendix ORD: 12.7D)

Hives are best positioned with the hive entry facing North-East and will need ample winter sunshine (full sun if possible) to minimize the risks of diseases such as Nosema and Chalkbrood. Shading during summer can be provided using shade cloth structures or similar.

Position hives with adequate space for their maintenance. A space of a minimum 1m wide will be needed along one side of the hive and a minimum of 60cm wide along the opposite side. A space approximately 1.5m wide is needed behind the hive and the bees will need at least 30cm clear (preferably 50cm) in front of the hive entry. In total these dimensions mean that the hive and the working area around it will total about 2.5m by 2.1m.

Avoid placing bee hives within paddocks used by horses, cattle and other large animals, unless the hives are in a fenced off area. This is to avoid the hives being knocked over if used as scratching posts by the animals.

7.3 Swarming

Swarming is a natural behaviour of honey bees and occurs chiefly in spring to early summer. Swarms should be collected when in the cluster stage to prevent them flying to nearby properties and establishing in houses, trees or similar sites, thus becoming a nuisance.

Honey bee colonies should be managed to prevent or minimise swarming.

The most effective measure in the prevention of swarming is the replacement of old or failing queen bees with new ones, preferably ones with a low genetic disposition to swarm.

The splitting of a colony of honey bees into two or more units by the beekeeper will also reduce its population and its likelihood to swarm.

Other measures include the provision of additional supers for brood rearing and honey storage. It is critical that the queen has adequate space for the rearing of brood, especially when queen excluders are used to restrict her to the brood chamber. To that end the beekeeper needs to have in place a management process to replace old brood comb with frames of fresh foundation in the brood chamber.

7.4 Capturing and Hiving Swarms

Beekeepers should take responsibility for a swarm that has issued from one of their hives, and capture and hive it as soon as possible after it has formed into a cluster.

7.5 Provision of Water

Beekeepers are required to provide water close to their hives (maximum 10m distant, preferably within 5m). Bees prefer water from a sunny place with capillary moisture, for example wet sand or gravel, the edge of a concrete pond, or floating water weeds. If you establish these sources, there is much less chance of bees visiting swimming pools. In hot weather, bees use a large amount of water to maintain temperature and humidity within the hive.

7.6 Pesticides and Herbicides

Do not use pesticides and herbicides when bees are foraging. For bees to forage the air temperature needs to be 15C or more

7.7 Docile Bees

Honey bee colonies managed in urban areas should be maintained with healthy queens of a docile strain. Docility is one of the main selection criteria in queen bee breeding programs. There are a number of queen breeders in Western Australia most of whom sell through the retail beekeeping outlets. Queens can occasionally also be acquired through WAAS from hobbyists.

Where a hive's behavior is consistently aggressive despite good beekeeping practice, the queen should be replaced with a new queen from a reputable breeder.

Younger queens tend to be more vigorous which helps maintain the health and strength of the colony as a whole.

7.8 Robber Bees

When nectar is scarce, honey bees may rob honey from any source they can find outside their own hive. Exposure of honey (including sticky honeycombs) to honey bees in the open will encourage robbing. This is poor beekeeping practice as it can increase the risk of disease spread and can increase the risk of neighbours being stung.

When the beekeeper notices robbing starting to occur after opening a hive, the hive should be re-assembled and closed as quickly as possible. Robbing can escalate quickly to a frenzy, resulting in real nuisance for the beekeeper.

7.9 Disease Control

Despite Western Australia being largely disease-free, there are a few honey bee diseases here, of which American Foulbrood (AFB) is the most serious. Beekeepers should be cautious about mixing hive equipment, or purchasing hives unless from known AFB free apiaries.

Some bee diseases are 'notifiable', and urban beekeepers should be familiar with the Biosecurity and Agriculture Management (Identification and Movement of Stock and Apiaries) Regulations.

A good information source for diseases and pests to which bees are at risk is the series of leaflets issued by DAFWA and available on their website (www.agric.wa.gov.au).

7.10 Flight Paths

Beekeepers must manage their hives to minimize the risk of interference with neighbours and the general public, particularly in those areas used intensively for public access or recreation. An important element of this is the location of hives, so that the bees' flight paths to and from the hives, when on their foraging

flights, are consistently at least 3m above public footpaths or recreation areas.

7.11 Robbing (Harvesting) and Working Hives

Avoid working or robbing hives in cold, windy or wet conditions. In such conditions bees become aggressive, and the potential for trouble increases.

Beekeepers should cooperate with their neighbours when they need to work bees and ensure their neighbours are not working or relaxing outdoors at the time. Try to make hive manipulations as quick as possible so there is minimal disturbance to the bees.

Domestic animals should be kept indoors when bees are being worked, and until the bees have settled down afterwards.

Use clearer boards (sometimes called escape boards) to prepare honey supers for harvest. This is much less disruptive to the bee colony than the shaking, brushing or blowing methods. Boards are available from beekeeping suppliers.

7.12 Lights

On warm nights, bees are attracted to house lights, particularly fluorescent ones. If the windows are not screened, problems can occur. Beekeepers should place physical barriers between their hive entrances and neighbours' lights.

7.13 'Bee Poo'

Bees sometimes defecate when in flight and this can have an adverse effect on neighbours' properties, e.g. windows, cars, clothes on washing lines. This is most noticeable when a hive is affected by the disease Nosema. Keeping bees healthy and disease-free helps remove the problem (siting the hive to receive plenty of winter sun is important). Additionally this problem can be mitigated by siting hives where the bees' flight paths will cause least 'bee poo' problems.

8. General Considerations

8.1 Transportation of Hives

Beekeepers must take appropriate care when transporting hives of honey bees. All loads of hives and supers of honey must be secured in accordance with the Road Regulations. The beekeeper needs to take all precautions to avoid losses of bees en route

The stopping off at fuel stations or travel through built up areas with bright street lighting and traffic lights could cause loss of stock and not be in the public's best interest. Travel routes, refuelling and breaks should be carefully planned prior to departure.

Ideally, beehives should be transported by the Closed entrance method.

Points about this method include:

this method allows an owner to shift bees a short distance and unload without being stung, by blocking the hive entrance with a foam strip or similar;

hives must be fitted with adequate ventilation so bees don't suffocate;

bees can be shifted in a conventional station wagon vehicle as well as on a truck;

hives can be closed at night after the bees, clustered at the entrance, are smoked and driven inside the hive; and

shifting should be done at night when all bees are at home and when temperatures are coolest.

8.2 Use of Smoke in Hive Management

Smoke is used by beekeepers as a management aid to subdue honey bees when opening hives.

Smoke the entrance of hives before mowing or using weed slashers close to your hive/s. These machines, along with the smell of cut grass, upset bees, and operators or people passing by may be stung.

The use of the bee smoker is controlled by fire regulations. On days of total fire ban it is prohibited to light and use a smoker.

On all other occasions, when a smoker can be used, the following rules must be followed:

- light the smoker in an area devoid of combustible material;
- do not set the smoker down on combustible material whilst in use. Many beekeepers keep their lit smoker in a metal bucket at all times;
- do not place the smoker on neighbouring hives or in a position where it can be dislodged by wind or easily knocked over;
- extinguish the smoker completely when finished; and
- water (at least 5 litres) must be readily available at the site.

8.3 Protective Clothing

When opening a hive, it is strongly recommended to protect the head and face with a hat and veil, or with a bee suit. If a full-length suit is not worn, it is good practice to wear long-sleeved shirts and long trousers of a light colour when working bees. Gloves are a useful addition to protective clothing to reduce the number of stings received by the beekeeper, especially when manipulating the brood.

8.4 Honey Sheds

Honey houses/extraction rooms should be bee proof. The return from the field of honey supers and the

extraction process itself will invariably invite robber bees. Sticky frames (post extraction) are equally highly attractive to robber bees.

Under no circumstances should sticky frames/supers be left out in the open to be cleaned up by foraging bees. This is not only a bee disease hazard but increases the risk to community members of bee stings.

8.5 Removal of Un-managed Hives

Colonies of bees in hives need to be actively managed. If a landowner has a hive on their land which, for whatever reason, is not being actively managed by a beekeeper, it is recommended that they arrange for a registered beekeeper to remove it, or to start actively managing it on their behalf.

8.6 Notification of Neighbours

Beekeepers are advised to notify their neighbours of their beekeeping activities and should re-assure them that they will always comply with this Code. A gift of a bottle of honey at harvest time almost always helps maintain a positive relationship with neighbours.

9. Acknowledgements

The reference material used in preparing this document included the draft Code of Practice for Urban Beekeeping in Southern Tasmania (the Southern Beekeepers Association of Tasmania), the Beekeeping Code of Practice for NSW (Doug Somerville), the Guidelines for keeping bees in Queensland (Queensland Government), the Code of Practice for Beekeeping in Residential Areas of the ACT (Territory and Municipal Services), Victoria's Apiary Code of Practice, published by the Victorian Department of Planning and Community Development and the National Best Management Practice for Beekeeping in the Australian Environment (The Australian Honey Bee Industry Council).

Dear Sir / Madam,

RE: APPLICATION TO KEEP A BEE HIVE – 59 PRATT ROAD, EATON

The Shire of Dardanup has received an application to keep a bee hive at the above address.

There is no commercial aspect to the proposal, and the application is being assessed under the *Shire of Dardanup Health Local Laws 2000*.

As part of the process of assessment, the proposal is being referred to surrounding landowners and land occupiers prior to determination. The details of the proposal are enclosed for your information.

You are invited to submit any comments you may have on the proposal by **4pm, Wednesday 31 May 2017**.

It is the Shire's preference that you submit your comments by email to: records@dardanup.wa.gov.au.

If you do not have access to email, written submissions can be submitted in person at the Shire Offices at Dardanup or Eaton, or alternatively posted to the following address:

Chief Executive Officer
Shire of Dardanup
PO Box 7016
EATON, WA 6232

Please direct any enquiries to Neil Nicholson, Principal Environmental Health Officer **(08) 9724 0340** or neiln@dardanup.wa.gov.au.

Yours sincerely

MR NEIL NICHOLSON
Principal Environmental Health Officer

Enc: Site Plan – Proposed Bee Hive - 59 Pratt Road, EATON (Doc Ref: [HAP-R0376237](#))

**APPLICATION FOR
COMMUNITY GRANT**
\$1,000 or less

(Appendix ORD: 12.9A)
28 AUGUST

FORM 115 (A)

2017

Date stamp

Part 1 Applicant Details

Applicant/Organisation Name

CWA River Valley Belles

Postal Address

28 Castlerew St Burekup WA 6227

Name of Contact Person

Mobile

0413 831 800

Part 2 Information about your Organisation

What are the main services and/or activities of your organisation?

To strengthen the community by providing an accessible meeting place for local women and their families to interact within our township. The branch plan is that our building will facilitate a wide range of events and gatherings.

Our CWA branch aims to establish a sustainable support network for local women and encourage community involvement by fundraising for local charities and services. Some methods include:

- A venue to be hired/borrowed for local events, workshops + meetings
- A kitchen to cook in for charity events and/or catering.

Have you previously received funding from the Shire of Dardanup Community Grants Scheme?

NO

YES; please provide details below:

What Year?

Amount approved \$

Have you successfully acquitted the funds?

NO

YES

Part 3 Grant Application Details

What are the proposed funds being used for? (Be specific how you will be using the funds and give as much detail as possible)

(Appendix ORD: 12.9A)

To carry out repairs to the existing CWA building.
 To purchase ~~items~~ ^{appliances} needed for gatherings.
 Tidying up the outside area to make it more accessible.

Provide address / project location (if applicable)

CWA Hall, Russell Rd Borebup.

Expected Start Date:

October 2017.

Expected Completion Date:

December 2017.

How will the funds benefit the Shire of Dardanup community? (Be specific and give as much detail as possible)

Bringing the building up to date will enable more events to be held there.

Amount Requested

\$ 1000-

Part 4 Budget

TOTAL PROJECT COST

\$ 1800-

GRANT REQUEST AMOUNT

Council Contribution (grant funds requested in this application, up to \$1,000 + GST if registered)

\$ 1000-

TOTAL \$ 1800-

Part 5 Expenditure - please detail each item

Item	Amount
Small repairs to building. (replace outer ^{door} repair wall)	500-
Appliances needed (urn, clock)	200-
Purchase mulch + plants for outer area.	300-
Labour for landscaping.	625- (IN KIND)
Donated plumbing goods.	175 (IN KIND)
TOTAL EXPENDITURE	\$ 1800-

Part 6 Checklist

- All boxes filled in with as much detail as possible
- Budget complete
- Quotes attached

If a grant is provided the organisation/individual agrees to the following conditions:

1. The grant will be used for the purpose for which it was given and will be expended within the financial year granted, unless otherwise agreed in writing by the Shire of Dardanup.
2. Copies of receipts or invoices, certified by the Chairperson, or delegated officer as true copies of originals, to support expenditure will be returned to the Shire of Dardanup along with the grant acquittal within 1 month of completion.
3. Any unexpended funds will be returned to the Shire of Dardanup within 3 months of payment of the grant, unless otherwise agreed in writing by the Shire of Dardanup. *Please contact Shire of Dardanup Grants officer to discuss prior to returning funds.*
4. If there is to be any delay in the expenditure of the grant, a written request will be made seeking approval for the extension of time.
5. A grant will not be approved for a development/project/request that has been commenced / completed. *No retrospective funding will be provided in any circumstances.*
6. Any special conditions that are attached to the grant will be met.
7. All relevant records will be kept for a period of 7 years and will be made available for audit at any time.
8. The Shire of Dardanup will be acknowledged in any publications or media coverage for its support.
9. Your development/project/request should be discussed with the Shire of Dardanup prior to applying.
10. If satisfactory acquittal is not submitted no further grants will be made available to the group.

Please note:

- ❖ Keep a copy of your application for your own record.
- ❖ A Shire Officer will contact you if more information is required.
- ❖ All applicants are advised in writing of the outcome.
- ❖ Applications are processed in the order in which they are received.
- ❖ Assessment will take a minimum of one month.

Part 8 Declaration

I, the undersigned, certify that I have been authorised to:

- submit this application, and;
- accept the undertakings and conditions of the application as described in Part 7.

I also acknowledge that the information contained herein and attached is to the best of my knowledge true and correct.

Part 7 Undertakings and Conditions

If a grant is provided the organisation/individual agrees to the following conditions:

1. The grant will be used for the purpose for which it was given and will be expended within the financial year granted, unless otherwise agreed in writing by the Shire of Dardanup.
2. Copies of receipts or invoices, certified by the Chairperson, or delegated officer as true copies of originals, to support expenditure will be returned to the Shire of Dardanup along with the grant acquittal within 1 month of completion.
3. Any unexpended funds will be returned to the Shire of Dardanup within 3 months of payment of the grant, unless otherwise agreed in writing by the Shire of Dardanup. *Please contact Shire of Dardanup Grants officer to discuss prior to returning funds.*
4. If there is to be any delay in the expenditure of the grant, a written request will be made seeking approval for the extension of time.
5. A grant will not be approved for a development/project/request that has been commenced / completed. *No retrospective funding will be provided in any circumstances.*
6. Any special conditions that are attached to the grant will be met.
7. All relevant records will be kept for a period of 7 years and will be made available for audit at any time.
8. The Shire of Dardanup will be acknowledged in any publications or media coverage for its support.
9. Your development/project/request should be discussed with the Shire of Dardanup prior to applying.
10. If satisfactory acquittal is not submitted no further grants will be made available to the group.

Please note:

- ❖ Keep a copy of your application for your own record.
- ❖ A Shire Officer will contact you if more information is required.
- ❖ All applicants are advised in writing of the outcome.
- ❖ Applications are processed in the order in which they are received.
- ❖ Assessment will take a minimum of one month.

Part 2 Information about your Organisation

What are the main services and/or activities of your organisation?

The main services, are to provide basketball to the youth of Dardanup and surrounding towns.

Have you previously received funding from the Shire of Dardanup Community Grants Scheme?

NO

YES; please provide details below:

What Year?

Amount approved \$

Have you successfully acquitted the funds?

NO

YES

Part 3 Grant Application Details

(Appendix ORD: 12 9A)

What are the proposed funds being used for? (Be specific how you will be using the funds and give as much detail as possible)

The funds will be used to provide vinyl flooring in the basketball/soccer kiosk, and put a ceiling in the storeroom (does not have one at present) at the

Wells Recreation Ground.

Provide address / project location (if applicable)

Recreation Rd Dardanup

Expected Start Date:

01/10/2017

Expected Completion Date:

18/10/2017

How will the funds benefit the Shire of Dardanup community? (Be specific and give as much detail as possible)

The funds will benefit the community, by improving the facilities, within the main hub of basketball and soccer. We are trying to attract more kids, to be involved in sport. At this stage the floor is just concrete, and not very hygienic, and there is no ceiling in the store room.

INSTALLATION GUIDE

Congratulations on selecting your floor coverings. The following will assist us in the installation of your floor coverings

1. **DOOR CLEARANCE.** If it is necessary for your doors to be cut to clear, it is best that it is done before the carpet is laid – these doors should be left off where possible until after installation. If it is necessary to remove door for installations they will be left off.
2. **FURNITURE. PLEASE CLEAR THE AREA TO RECEIVE FLOOR COVERINGS OF ALL FURNITURE.**
In cases where the customer has requested furniture to be moved and a charge has been made, all care and attention will be given but no responsibility accepted for any accidental damage caused.
3. **TAKE-UPS.** If you are removing old floor coverings yourself, you should leave the carpet gripper in place if we are installing new carpet. If new carpet is not being installed everything must be removed and holes filled.
4. Should we require to glue smoothedge in lieu of nailing due to concrete hardness this will incur an extra cost.
5. Should your existing carpet be installed under your skirting, removal of carpet will incur extra costs.
6. Unless otherwise stated on invoice no additional cost for floor preparation has been allowed for.
7. **PAYMENT TERMS.** Please be advised that full payment is required prior or on the day of installation.
8. Some marking and scuffing of walls and/or skirting below 20cm from the floor level must be expected due to the necessary procedure in installing floor coverings. In some instances these marks and scuffs may require repairing and painting. Please note that these marks and scuffs are not our responsibility.
9. Deposits will not /be refunded should the job not proceed.
10. **ANY CUT PILE CARPETS MAY ADOPT A CONDITION OF SHADING OR PILE REVERSAL. THIS IS NOT A MANUFACTURING DEFECT AND NO CLAIMS AS A RESULT WILL BE RECOGNISED.**
11. All warranties/guarantees extend only to owner occupied premises.
12. If the installer arrives on site and is unable to proceed with installation due to issues on site not related to our contract then a minimum charge for the 'wasted trip' will come into effect. The charge for a 'wasted trip' is \$150.00.
13. **KEYS.** If you will not be at home when your floor coverings are to be installed please arrange for keys to be available.

Passing of Property and Risks

Property in the goods shall not pass to the Customer until the goods are paid in full. The Customer agrees that while the goods are in the Customer's possession or control such goods shall be held by the Customer as bailee until payment in full is received by the Company pursuant to this Contract. If the Customer defaults in the payment due to the Company for the goods the Company may, without prejudice to any other rights it may have, recover the goods from the Customer. Risk in the goods shall pass to the Customer upon delivery of the goods to the Customer.

First Aid Enrolment Enquiry

1 message

St John Bunbury Admin <sjabunbury@stjohnambulance.com.au>

Wed, Aug 23, 2017 at
10:58 AM

Reply-To: St John Bunbury Admin <sjabunbury@stjohnambulance.com.au>

To: "michelle@sleepandsnore.net" <michelle@sleepandsnore.net>

Good Morning,

Thank you for your enquiry regarding First Aid courses in the South West.

As discussed on the phone the Provide First Aid course (previously known as Senior First Aid) is available as a 1 day or 2 day course. The 1 day is \$160 and the 2 day \$175. The difference between the two courses is that for the 1 day course the student does the reading/questions online prior to coming to the course and the 2 day the student completes this part in the classroom. As a general rule, the 1 day courses are run in Bunbury approx. 1 – 2 times per week and the 2 day course is run once per month. Courses usually book up approx. 1 – 2 weeks in advance.

All First Aid course information; dates, costs and locations are now available online through our St John Ambulance website.

For Companies who wish to book either with credit card or on account please complete the attached form and return to sjabunbury@stjohnambulance.com.au – you can also book online if paying with credit card if you prefer. I have also attached a credit application form in the event that you do not already have an account with us.

Please click here to see our [Terms and Conditions](#) for enrolment including what to wear and our cancellation & transfer policy.

For students to access their certificate once they're course is completed you will need a valid USI. If they do not already have a USI they will need to apply for one, please visit <https://www.usi.gov.au> or see attached information sheet to set this up.

**St John**

Kind Regards

Part 2 Information about your Organisation

What are the main services and/or activities of your organisation?
 We are a local cricket club consisting of 3 senior grades, providing a family friendly atmosphere where people can come and play the great game and enjoy being around like minded people who all work together to improve skills and culture in the Eaton area. We are currently the reigning premiers in first grade after many years of struggle. Some members have been at the club for more than 15 years.

Have you previously received funding from the Shire of Dardanup Community Grants Scheme?

NO

YES; please provide details below:

What Year?

[Empty box for year]

Part 3 Grant Application Details

(Appendix ORD: 12.9A)

What are the proposed funds being used for? (Be specific how you will be using the funds and give as much detail as possible)

The funds will be used to purchase much needed training equipment as our current stock is quite old and damaged from years of use. This equipment is very important as we have a very positive culture at the club currently and we do not wish to lose it.

Provide address / project location (if applicable)

Eaton Oval, Pratt Road

Part 2 Information about your Organisation

What are the main services and/or activities of your organisation?

We are a local cricket club consisting of 4 junior teams and also 40+ 5-10 year olds. Being a not for profit organisation we struggle to raise enough funds to purchase new equipment each year. Over the past 4 years our club committee has worked incredibly hard to build a strong base of juniors to hopefully one day filter through to the senior ranks and build cricket as a whole in the south west region.

Have you previously received funding from the Shire of Dardanup Community Grants Scheme?

NO

YES; please provide details below:

What Year?

Amount approved \$

Have you successfully acquitted the funds?

NO

YES

Part 3 Grant Application Details

What are the proposed funds being used for? *(Be specific how you will be using the funds and give as much detail as possible)* **(Appendix ORD 12-9A)**

The funds will be used to purchase much needed training equipment and playing equipment for all our junior teams. We try to keep playing costs as low as possible to attract and keep people involved in our great game. The downside to low costs is we cannot keep up with the wear and tear of the equipment. We also regard safety quite high for our junior players, so we would like to supply some good quality helmets which will also lessen the costs for the equipment needed for each of our junior players. Last year the younger kids had a limited range of appropriate sized bats to use which then affects their development as players. With the rise of women's cricket in Australia we expect to get an influx of young girls taking up the game

Provide address / project location *(if applicable)*

Eaton Oval, Pratt Road

Expected Start Date:

10/09/2017

Expected Completion Date:

How will the funds benefit the Shire of Dardanup community? *(Be specific and give as much detail as possible)*

Eaton Cricket Club is a part of the Shire of Dardanup community, we are solely run by volunteers from the Eaton Cricket Club and some parents. We believe that kids must be given every opportunity to participate in sport, also we endeavour to provide good quality equipment and also provide a safe environment for our kids

As per left

Part 2 Information about your Organisation

What are the main services and/or activities of your organisation?

Grow Cook Eat Create is an incorporated organisation that aims to develop inclusion, equality and respect within the community by using communal gardening and cooking to enhance the self-esteem and therefore participation of marginalised groups. We operated a weekly, term-based program where participants of all ages and abilities come together to cook, socialise and learn in a supportive and inclusive setting. The program is not specifically for people with disabilities, however it is these people that make up the majority of our clients.

More than a communal cooking activity; through inclusive, participatory and person-centred programming participants learn valuable life skills (including how to budget and cook healthy options, how to develop, use and maintain a kitchen garden), gain independence, improve their social connections and become productive members of our community.

We have recently signed an agreement with the Shire of Harvey whereby we are utilising space within the Leschenault Leisure Centre in Australind free of charge to base Grow Cook Eat Create's activities. Whilst we are based in the Shire of Harvey, our clients live throughout Greater Bunbury and we do not have any restrictions regarding a potential client's home location.

A typical Grow Cook Eat Create class is three hours long and involves the following:

- Learning about healthy food and cooking
- Learning new cooking skills
- Recipe and weekly meal planning
- Preparing the kitchen for cooking
- Selecting fresh food from the garden
- COOKING!
- Communal eating
- Learning about personal and food hygiene and cleaning the kitchen
- Tending to the kitchen garden
- Playing food and gardening-related games and other activities

It is our aim that through the above, clients develop the following attributes which ultimately enable them to become more active members of our community:

- Self-worth
- Participation
- Autonomy
- Ownership
- Inclusion

Have you previously received funding from the Shire of Dardanup Community Grants Scheme?

NO

YES; please provide details below:

What Year?

Amount approved \$

Have you successfully acquitted the funds?

NO

YES

Part 3 Grant Application Details

What are the proposed funds being used for? *(Be specific how you will be using the funds and give as much detail as possible)*

(Appendix ORD: 12.9A)

Whilst the Shire of Harvey have supported us with a new space through which to house our program in 2017 and beyond, we require funds to purchase big-ticket items to enable us to actually deliver our weekly activities (class fees of approximately \$12/person including a meal will cover smaller recurrent costs such as food, cutlery etc).

Should we be successful in this grant application we propose that this funding be used to purchase a fridge for use in the kitchen as well as a lock to ensure our items are protected when we are not using the space. Our own fridge will enable us to store food for the next week's sessions and save considerable funds for other uses as food purchased can be fully utilized.

We have sourced a 512L Hisense fridge/freezer for this purpose priced at \$996 from Harvey Norman, Bunbury. The fridge will be picked up to save delivery costs.

Provide address / project location *(if applicable)*

Leschenault Leisure Centre, Leisure Drive, Australind

Expected Start Date:

Term 4 2017 = 09/10/2017

Expected Completion Date:

30/06/2018

How will the funds benefit the Shire of Dardanup community? *(Be specific and give as much detail as possible)*

Funds will benefit the Shire of Dardanup community as Grow Cook Eat Create is open to everyone living in Greater Bunbury and the South West. According to the Australian Bureau of Statistics 14,233 people live in the Shire of Dardanup and also according to the ABS 18.3% of Australians have a disability. This equates to over 2,500 people in the Shire who could not only have fun but also benefit from increased life skills, self-esteem and self-sufficiency which enables them and their families, carers and friends to lead more fulfilled and happy lives.

To Whom It May Concern

RE: Funding support for Grow Cook Eat Create

As the Chief Executive Officer of Enable WA Inc. (Enable), I am writing in support of Grow Cook Eat Create's submission for funding support.

Enable is a not-for profit organisation providing support to individuals and their families living with disability, mental health, aging or short or long term health issues in their home and in their community.

Our purpose is driven by the belief that *everyone* deserves the opportunity of a 'typical life'. Grow Cook Eat Create's mission supports this purpose, and it is for this reason that I put forward my support of the program.

As an inclusive person-centred program, Grow Cook Eat Create does much more than just offer cooking classes for people living with disability. Importantly it provides opportunities for the learning of life skills such as budgeting, shopping and healthy eating. Improvements in social and communication skills provide a sense of belonging and connection with community. Through this, participants grow to become stronger, more independent members of their community; they have the opportunity to live that 'typical life.'

I also support the project based on my knowledge of the capacity and ability of the project coordinator, Debbie Woodward. As an employee of Enable, I have known Debbie for five years. I find Debbie to be hard working, committed, demonstrates integrity, is innovative and passionate about the area she works in. Professionally Debbie brings a strong work ethic to her work, is a committed employee, and works collaboratively when developing and supporting care plans with the clients.

I support her vision to develop a thriving community space for people of all abilities to connect and grow. Enable will support the program in any way we can, however we have been unable to financially support the proposed project due to increased pressure on our own budget; as many organisations like ours working in the not-for-profit sector, are currently experiencing.

There exists no other program like this in Greater Bunbury and we wish Debbie all the best in the development of Grow Cook Eat Create.

Should you have any queries please do not hesitate to contact me.

Yours sincerely

Robert Holmes

Chief Executive Officer

(Appendix ORD: 12.9A)

August 1, 2017

To Whom It May Concern,

It is with great pleasure that I recommend Mrs. Deb Woodward and her Community Kitchen Program. During my time as Operations Manager/South West for Life Without Barriers I had the opportunity to see personally the amazing work that the program offered all members of the community, but particularly those who were disadvantaged and excluded from many community activities.

The Community Kitchen Program under Deb's direction didn't simply provide a cheap meal for those who came to the kitchen, but also provided each and every participant with the sense of inclusion and the opportunity to develop real life skills that would assist them in gaining greater independence. This in turn enhanced their confidence and self-esteem. I witnessed clients who had previously been living on the street settle into supported accommodation and gain meaningful employment as a direct result of the contribution that Deb and her Community Kitchen program made to their lives.

Another noteworthy point is the fact that the program run by Deb was open to all of the wider Bunbury community rather than exclusively to Life Without Barriers clients. The kitchen was accessed by clients from all of the agencies in town and others from the wider community who heard on the grapevine about the program. People from all walks of life had the opportunity to participate in the preparation of a meal, to join in art and craft and work in the community garden.

Perhaps one of Deb's greatest successes was the employment of a young woman with a disability to assist her in the kitchen and engaging the clients in the various planned activities. The change that being not only employed, but also being valued made to this young woman was life changing, I had the opportunity to speak with her parents who were overwhelmed by the positive change in their daughter.

I was deeply saddened to hear that Life Without Barriers were not going to continue to offer this invaluable program due to lack of funding. There now lies an opportunity for someone else to step up to the plate and support the Community Kitchen program for the benefit of all the Bunbury community.

I would be happy to offer further support should it be required and can be contacted on my mobile, Mob: 0428971572.

Regards.

DATE 10-12-15

To whom it may concern,

My daughter

Jessica currently attends the Life Without Barriers Cooking group. This group is from this Friday (11-12-15) cancelled due to lack of funding. Please could something be done so this group can continue!

Before starting this group, Jessica who has both mental illness and a physical disability, stayed in her room, in her bed, isolated from society and not wanting to do anything. Which actually led her to being more depressed.

Since she had this group to attend she became... Excited about going (and life), talked about what they were making etc. but more importantly she had reason to smile again and

DATE

get out of bed even though it was only one day a week

She would tell us about how she was helping others to cut veg and fruit, mix ingredients and cook the meal they were having. The extra gift this gave her was that she made friends with whom she is able to talk to away from group. How great it was that she gained some confidence. She has now started an adult learning course.

So this group has brought so much to just one client, which may not seem much to an everyday person, but it is an enormous gift to her and her family.

Sincerely

Shacey Augustson - Mum of Jessica Augustson

What are the proposed funds being used for? (Be specific how you will be using the funds and give as much detail as possible)

These funds will be used to purchase wool (we only use 100% cotton wool from Bendigo Wools, as this has been given notice to state the ladies skin)

(Appendix ORD. 12.9A)

To enable us to get flyers/business cards/promotional material printed, to spread the word about our knockers. The aim is to help as many women as possible, while they are already going through enough.

Provide address / project location (if applicable)

4 Cheviot Way, EATON

Expected Start Date:

01/09/17

Expected Completion Date:

30/06/18

How will the funds benefit the Shire of Dardanup community? (Be specific and give as much detail as possible)

It will help out ladies suffering from Breast Cancer to have prosthesis for FREE

Amount Requested

\$980

Part 4 Budget

TOTAL PROJECT COST

GRANT REQUEST AMOUNT

Council Contribution (grant funds requested in this application, up to \$1,000 + GST if registered)

TOTAL

\$980

\$980

Part 5 Expenditure – please detail each item

Item	Amount
Wool	680
Printing	300
TOTAL EXPENDITURE	\$980

Part 6 Checklist

- All boxes filled in with as much detail as possible
- Budget complete
- Quotes attached

Part 7 Undertakings and Conditions

If a grant is provided the organisation/individual agrees to the following conditions:

1. The grant will be used for the purpose for which it was given and will be expended within the financial year granted unless otherwise agreed in writing by the Shire of Dardanup.
 2. Copies of receipts or invoices, certified by the Chairperson or delegated officer as true copies of originals, to support expenditure will be returned to the Shire of Dardanup along with the grant acquittal within 1 month of completion.
 3. Any unexpended funds will be returned to the Shire of Dardanup within 3 months of payment of the grant unless otherwise agreed in writing by the Shire of Dardanup. *Please contact Shire of Dardanup Grants officer to discuss prior to returning funds.*
 4. If there is to be any delay in the expenditure of the grant, a written request will be made seeking approval for the extension of time.
 5. A grant will not be approved for a development/project/request that has been commenced / completed. *No retrospective funding will be provided in any circumstances.*
 6. Any special conditions that are attached to the grant will be met.
- All relevant records will be kept for a period of 7 years and will be made available for audit at any time.
7. The Shire of Dardanup will be acknowledged in any publications or media coverage for its support.
 8. Your development/project/request should be discussed with the Shire of Dardanup prior to applying.
 9. If satisfactory acquittal is not submitted no further grants will be made available to the group.

Please note:

- ❖ Keep a copy of your application for your own records.
- ❖ A Shire Officer will contact you if more information is required.
- ❖ All applicants are advised in writing of the outcome.
- ❖ Applications are processed in the order in which they are received.
- ❖ Assessment will take a minimum of one month.

Part 8 Declaration

I, the undersigned, certify that I have been authorised to:

- submit this application and
- accept the undertakings and conditions of the application as described in Part 7.

I also acknowledge that the information contained herein and attached is to the best of my knowledge true and correct.

Part 2 Information about your Organisation

What are the main services and/or activities of your organisation?

Eaton Lions are a part of community life and our club is part of Lions Australia which in turn is part of an International Association. Lions Clubs are filled with people who are joined by a common desire to make our communities better. Every Lions Club is different with it's own mix of activities but we all adhere to our International Motto - "We Serve"

Last year our main activities and projects included:

Australia Day Breakfast, Eaton Foreshore Festival Parking, BBQs for and sponsorship of Camp Quality, maintaining preparedness of our Emergency Catering Trailer, World Vision Child Sponsorship, Cash support for Lions Institutes. We also do various sausage sizzles and catering either to raise funds to donate or just to provide a service for community benefit.

Have you previously received funding from the Shire of Dardanup Community Grants Scheme?

NO

YES; please provide details below:

What Year?

2016-2017

• Round 2

• Acquittal

completed.

Amount approved \$

\$938

Have you successfully acquitted the funds?

NO

YES

Part 3 Grant Application Details

What are the proposed funds being used for? (Be specific how you will be using the funds and give as much detail as possible)

(Appendix ORD: 12.9A)

The funds are to be used to purchase equipment used at almost all of our outdoor activities relating specifically to safety management and parking control. The safety and comfort of our own members in providing the service is also a consideration. A wish list of the required equipment is attached.

Provide address / project location (if applicable)

Eaton Foreshore for next main events, Australia Day Breakfast and the Foreshore Festival

Expected Start Date:

Expected Completion Date:

26th January 2018

Annual Events

How will the funds benefit the Shire of Dardanup community? (Be specific and give as much detail as possible)

Parking control provides the safest way of ensuring that the maximum amount of patrons can attend local community events by providing organised parking within limited available space at controlled locations without resorting to ad-hoc parking in unsafe or inappropriate locations.

Part 2 Information about your Organisation

What are the main services and/or activities of your organisation?

- to develop and grow an orchestra and, in so doing, to make classical music accessible to a wide audience.
- to foster, promote and maintain the musical development of individuals within the south west community.
- to provide a community service by performing at a variety of venues throughout the region.
- to promote and foster the appreciation of orchestral music within the community.
- to mentor young, developing musicians and to give them an opportunity to improve their skills by playing in an orchestra.

Have you previously received funding from the Shire of Dardanup Community Grants Scheme?

NO

YES; please provide details below:

What Year?

2015/2016 2016/2017

Amount approved \$

\$990

Have you successfully acquitted the funds?

NO

YES

Ms Melanie Serra
A/Manager
Shire of Dardanup
1 Council Drive
EATON WA 6232

24th August 2017

Dear Melanie

Attached is our application for consideration for a minor community grant for the Ferguson Music Trail to be held on 8th April, 2018.

I have read your guidelines and am aware that grant applications should be made by organisations resident within the Shire of Dardanup. Philharmonic South West does not fit this category as it resides in Bunbury. However, as the event for which funding is being applied takes place solely in the Ferguson Valley, and as in 2017 the event did attract significant numbers (approximately 500) of visitors to the Ferguson Valley, I am hoping our application may earn some consideration.

Philharmonic South West is a not-for-profit community orchestra which performs at various venues throughout the south west. Each year, as well as the Music Trail, it has performed a Christmas concert in the Valley either at St Aidan's Winery or Ferguson Farmstay.

A significant part of the application is for payment for a Music Director as well as for extra musicians. Please note that this is NOT recurrent salary payment. This is for a one off payment. The Music Director will need to drive down from Perth especially to conduct the concert. Also our orchestra, being a community orchestra, has several sections for which there are no musicians here in the south west. So two or three musicians need to be invited to drive down from Perth to join the orchestra on the day. These one off payments are to entice these musicians to make the trip on the day. The payments go some way towards covering petrol and other expenses the musicians will incur in making the trip to participate.

The Ferguson Music Trail creates quite a buzz amongst the audience with a great atmosphere evolving. The Music Trail has taken place in the past three years and has certainly become a permanent and anticipated event in the Valley.

Hoping this application for minor community grant funding receives favourable consideration and, indeed, is successful!

Yours sincerely

A handwritten signature in cursive script that reads 'Dana Trtica'.

Dana Trtica
Chairman
Philharmonic South West Inc

Part 3 Grant Application Details

What are the proposed funds being used for? (Be specific how you will be using the funds and give as much detail as possible)

Philharmonic South West presents the Ferguson Music Trail in March ^{April} each year. Small chamber ensembles present programs at venues throughout the Ferguson Valley, coming together for a final concert at St Aidan's. The proposed funds would be used to pay the Music Director and two visiting musicians who will need to travel down from Perth for the event. The grant would also be used to purchase some of the music needed for the various programs.

Provide address / project location (if applicable)

Various venues including: Evedon Park, Ferguson Farmstay, Green Door, Ferguson Hart Estate, Ferguson Falls, Carlaminda, St Aidans.

Expected Start Date:

Sunday, 8th April 2018

Expected Completion Date:

Sunday, 8th April 2018

How will the funds benefit the Shire of Dardanup community? (Be specific and give as much detail as possible)

- Benefits will be:
- tourists and new visitors will be attracted to the Ferguson Valley
 - the local community and visitors will have an opportunity to enjoy classical music and local hospitality in a relaxed environment.
 - participating venues will have extra exposure and will have an opportunity for increased sales on the day
 - by following a map and driving through the beautiful Ferguson Valley visitors will, hopefully, be inspired to make return visits to the Shire

Amount Requested

\$ 990

Part 4 Budget

TOTAL PROJECT COST

\$ 2450

GRANT REQUEST AMOUNT

Council Contribution (grant funds requested in this application, up to \$1,000 + GST if registered)

\$ 990

Part 6 Checklist

- All boxes filled in with as much detail as possible
- Budget complete
- Quotes attached

TOTAL Exp. \$ 3440

Part 7 Undertakings and Conditions

If a grant is provided the organisation/individual agrees to the following conditions:

1. The grant will be used for the purpose for which it was given and will be expended within the financial year granted, unless otherwise agreed in writing by the Shire of Dardanup.
2. Copies of receipts or invoices, certified by the Chairperson, or delegated officer as true copies of originals, to support expenditure will be returned to the Shire of Dardanup along with the grant acquittal within 1 month of completion.
3. Any unexpended funds will be returned to the Shire of Dardanup within 3 months of payment of the grant, unless otherwise agreed in writing by the Shire of Dardanup. *Please contact Shire of Dardanup Grants officer to discuss prior to returning funds.*
4. If there is to be any delay in the expenditure of the grant, a written request will be made seeking approval for the extension of time.
5. A grant will not be approved for a development/project/request that has been commenced / completed. *No retrospective funding will be provided in any circumstances.*
6. Any special conditions that are attached to the grant will be met.
7. All relevant records will be kept for a period of 7 years and will be made available for audit at any time.
8. The Shire of Dardanup will be acknowledged in any publications or media coverage for its support.
9. Your development/project/request should be discussed with the Shire of Dardanup prior to applying.
10. If satisfactory acquittal is not submitted no further grants will be made available to the group.

Please note:

- ❖ Keep a copy of your application for your own record.
- ❖ A Shire Officer will contact you if more information is required.
- ❖ All applicants are advised in writing of the outcome.
- ❖ Applications are processed in the order in which they are received.
- ❖ Assessment will take a minimum of one month.

Part 8 Declaration

I, the undersigned, certify that I have been authorised to:

- submit this application, and;
- accept the undertakings and conditions of the application as described in Part 7.

I also acknowledge that the information contained herein and attached is to the best of my knowledge true and correct.
