Investment Policy - Portfolio Risk Exposure

Council's investment policy provides a framework to manage the risks associated with financial investments.

Portfolio - Terms of Maturity

Limits are placed on the term to maturity thereby reducing the impact of any significant change in interest rate markets and to provide liquidity.

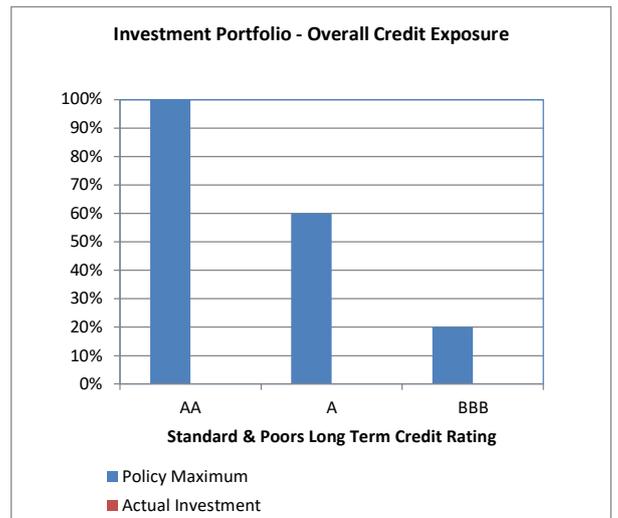

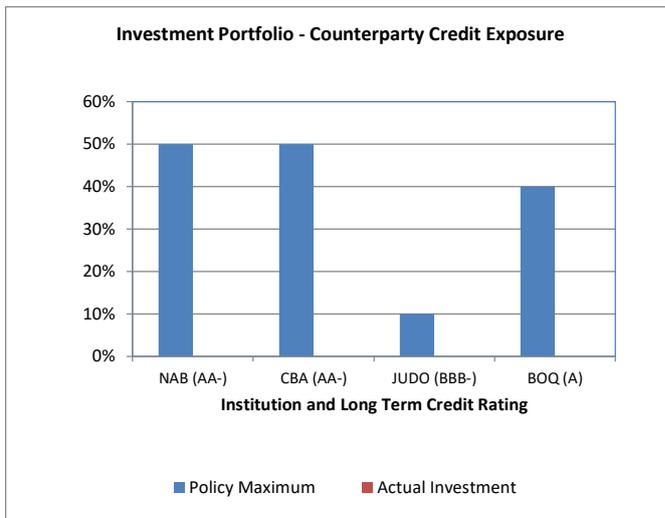

Counterparty Credit Exposure

Exposure to an individual authorised deposit-taking institution (ADI) counterparty will be restricted by their credit rating so that single entity exposure is limited.

Overall Credit Exposure

To control the credit quality on the entire portfolio, limits are placed on the percentage exposed to any particular credit rating category.

The following charts demonstrate the current portfolio diversity and risk compliance with the policy framework.
