¹ Ready to Eat - means food that is ordinarily consumed in the same state in which it is sold and does not include nuts totally enclosed in the shell or whole fruit and vegetables intended for further processing by the customer.

² Small Business - Is a business that employs less than 50 people in the 'manufacturing sector' or less than 10 people in the 'food services' sector. NOTE: when determining the number of employees of a business where casual and part time employees are involved, their weekly hours are added together and divided by the number of hours per week stipulated in the award for employees of that business. Only staff involved in food handing operations should be included.

³ Process - in relation to food, means activity to prepare food for sale including chopping, cooking, drying, fermenting, heating, pasteurising or a combination of these activities. NOTE: This is not the same definition for process that is used in the food safety standards. Thawing and washing have been removed from this definition as these processes present a very low risk to food safety and are not relevant for the purpose of this form.

⁴ Vulnerable Persons - refer to Standard 3.3.1 Australia, New Zealand Standards Code.

⁵ Shelf Stable - means non-perishable food with a shelf life of many months to years.
