### PLEASE NOTE:

- **Residential Sheds** in most residential zoned areas can be setback a minimum of 1m from rear and side boundaries. Maximum wall height of 3.0m, ridge height of 4.2m and total floor area up to 80m<sup>2</sup> or 10% aggregate of the site area (whichever is the lesser). In line with CP101. [Council Policy Manual](#)
- **Small Garden sheds** or detached patio type structures of 10m<sup>2</sup> or less, do not require building approval.
- **Patios and Carports** in most residential zoned areas setback a min of 1m from rear and side boundaries.
- **Open framed pergolas** that may include pervious type shade cloth less than 20m<sup>2</sup> and 2.4m in height may not require a building permit.
- **Swimming pools and spas issued with a building permit after May 1 2016** - barriers must be built in line with Australian Standards (AS)1926.1-2012 (*Safety barriers for swimming pools*) and (AS)1926.29 (*Location of swimming pool barriers*). The builder named on the permit is required to notify the shire with a (BA7) Notice of Completion form within 7 days of completion and before the permit expiry date. Failure to comply may result in fines. [Rules for Pools and Spas information booklet](#) May 2016. [Rules for portable pools fact sheet](#)
- **Soak wells** Building Permits for soak wells are generally not required. [Storm water discharge from buildings](#) must be diverted away from structures and contained on site within the lot boundaries. Soak wells may be required for some dwellings and most industrial sites at the rate of 65m<sup>2</sup> surface area to 1m<sup>3</sup> capacities. Burekup and Dardanup town sites may require additional capacity and may have an overflow connection point provided. Details to be indicated on the site plan.
- **Retaining walls** that retain more than 500mm high are required to have a building permit. Neighbours written permission is required if accessing adjoining property. [BA20A form or BA20 form](#). **(Please be aware that engineered detail may be required for walls greater than 900mm high.)**
- **Walls and fences** etc, Constructed of masonry, 750mm or greater in height are required to have a building permit. All other construction types over 1.8m in height may require a permit. **(Engineered detail may be required for walls greater than 900mm high.)** [Dividing Fences info and guide link](#)
- **Water storage tanks** - construction, erection assembly or placement of a water storage tanks with a capacity of more than 5000 Litres are required to have a building permit.

- **New Roof-mounted evaporative coolers** installed on residential buildings that are located in a designated bushfire prone area must be fitted with non-combustible covers. [Information link](#).
